

# Battleship: Team Crossover Edition

## Works Cited

Battleship project was initially developed by Code-Walkers on C++ and continued by Team Crossover.

Libraries Cited:

- `bits/stdc++.h` used for `random_shuffle` function

Random\_shuffle function code can be found on GeeksforGeeks forum:

[https://www.geeksforgeeks.org/shuffle-vs-random\\_shuffle-c/](https://www.geeksforgeeks.org/shuffle-vs-random_shuffle-c/)

Documentation instructions and config files were provided by the official Doxygen website:
